

# chill. money

## About

Chill Money is a hands-on interactive program that addresses the essential life skill of managing money. The program ensures that each participant develops the necessary knowledge and understanding of money, learns the skills required to manage their money and practises the behaviours that lead to healthy money habits. Chill Money uses a variety of learning formats including peer group problem solving activities, role-plays & real-life simulations in both workshop and community settings. When managing money, social skills are crucial!

## Program features

- Needs versus wants
